PROFILE SUMMARY

MERN Stack Developer with hands-on experience designing and deploying full-stack web applications. Proficient in React, Node.js, Express.js, NestJS, MongoDB, and TypeScript, complemented by Tailwind CSS. Built and deployed a full-featured e-commerce platform on Google Cloud Platform, demonstrating strong fundamentals in scalable architecture, API design, and production deployment. Eager to contribute full-stack capabilities to a dynamic engineering team.

PROJECTS

GreenGrocer — Full-Stack E-Commerce Platform

- Built a full-stack grocery e-commerce platform with product catalog, cart, wishlist, and multi-step checkout using React, Redux Toolkit, and Express.
- Implemented dual authentication (Google OAuth + email/OTP) with JWT and secure, HTTP-only cookie sessions.
- Integrated Razorpay for secure payment processing and order verification.
- Built an admin dashboard with full CRUD for products, categories, and collections, plus sales analytics using ApexCharts/Recharts and Excel export.
- Designed a coupon system and wallet/loyalty rewards feature with complete transaction history.
- Deployed on Google Cloud Platform (GCP) with Nginx configured as a reverse proxy for production routing.
